98. DON'T KNOW

A25. The next few questions ask about your views of the chances that various events will happen. Your answers can range from zero to one hundred, where zero means there is absolutely no chance, and one hundred means that it is absolutely certain. For example, when weather forecasters report the chance of rain, a number like 20 percent means "a small chance", a number around 50 percent means "a pretty even chance," and a number like 80 percent means "a very good chance."

A25a. What do you think the chances are that your (family) income will increase by more than the rate of inflation during the next five years or so?

_____PERCENT

A25b. During the next 5 years, what do you think the chances are that you (or your husband/wife) will lose a job that you wanted to keep?

A25d. Compared with 5 years ago, do you think the chances that you (and your husband/wife) will have a comfortable retirement have gone up, gone down, or remained about the same?

1. GONE UP

3. SAME

5. GONE DOWN

A26. The next question is about investing in the stock market. Please think about the type of mutual fund known as a diversified stock fund. This type of mutual fund holds stock in many different companies engaged in a wide variety of business activities. Suppose that tomorrow someone were to invest one thousand dollars in such a mutual fund. Please think about how much money this investment would be worth one year from now.

What do you think is the percent chance that this one thousand dollar investment will increase in value in the year ahead, so that it is worth more than one thousand dollars one year from now?

_____PERCENT CHANCE

A26a. Next I would like to ask you about your OWN (personal) income prospects in the next twelve months. What do you think is the percent chance that your income in the next twelve months will be higher than your income in the past twelve months?

_____PERCENT CHANCE

A27. The next questions are about investments in the stock market. First, do you (or any member of your family living there) have any investments in the stock market, including any publicly traded stock that is directly owned, stocks in mutual funds, stocks in any of your retirement accounts, including 401(K)s, IRAs, or Keogh accounts?

A28. Considering all of your (family's) investments in the stock market, overall about how much would your investments be worth today? (PROBE: What is your best estimate?)
