8:30 A.M. (Eastern) Thursday, January 22, 2026

## UNEMPLOYMENT INSURANCE WEEKLY CLAIMS

### SEASONALLY ADJUSTED DATA

In the week ending January 17, the advance figure for seasonally adjusted **initial claims** was 200,000, an increase of 1,000 from the previous week's revised level. The previous week's level was revised up by 1,000 from 198,000 to 199,000. The 4-week moving average was 201,500, a decrease of 3,750 from the previous week's revised average. This is the lowest level for this average since January 13, 2024 when it was 200,000. The previous week's average was revised up by 250 from 205,000 to 205,250.

The advance seasonally adjusted **insured unemployment rate** was 1.2 percent for the week ending January 10, unchanged from the previous week's unrevised rate. The advance number for seasonally adjusted **insured unemployment** during the week ending January 10 was 1,849,000, a decrease of 26,000 from the previous week's revised level. The previous week's level was revised down by 9,000 from 1,884,000 to 1,875,000. The 4-week moving average was 1,870,750, a decrease of 16,250 from the previous week's revised average. The previous week's average was revised down by 2,250 from 1,889,250 to 1,887,000.

## UNADJUSTED DATA

The advance number of actual initial claims under state programs, unadjusted, totaled 259,552 in the week ending January 17, a decrease of 71,411 (or -21.6 percent) from the previous week. The seasonal factors had expected a decrease of 73,459 (or -22.2 percent) from the previous week. There were 284,325 initial claims in the comparable week in 2025.

The advance unadjusted insured unemployment rate was 1.4 percent during the week ending January 10, a decrease of 0.1 percentage point from the prior week. The advance unadjusted level of insured unemployment in state programs totaled 2,209,473, a decrease of 89,750 (or -3.9 percent) from the preceding week. The seasonal factors had expected a decrease of 58,137 (or -2.5 percent) from the previous week. A year earlier the rate was 1.5 percent and the volume was 2,242,358.

The total number of continued weeks claimed for benefits in all programs for the week ending January 3 was 2,335,637, an increase of 117,116 from the previous week. There were 2,301,359 weekly claims filed for benefits in all programs in the comparable week in 2025.

No state was triggered "on" the Extended Benefits program during the week ending January 3.

Initial claims for UI benefits filed by former Federal civilian employees totaled 1,010 in the week ending January 10, an increase of 364 from the prior week. There were 426 initial claims filed by newly discharged veterans, an increase of 112 from the preceding week.

There were 12,977 continued weeks claimed filed by former Federal civilian employees the week ending January 3, an increase of 174 from the previous week. Newly discharged veterans claiming benefits totaled 4,403, a decrease of 36 from the prior week.

The highest insured unemployment rates in the week ending January 3 were in Rhode Island (3.3), New Jersey (3.2), Washington (2.8), Massachusetts (2.7), Minnesota (2.7), Oregon (2.4), Connecticut (2.3), Montana (2.3), New York (2.3), California (2.2), Illinois (2.2), and Pennsylvania (2.2).

The largest increases in initial claims for the week ending January 10 were in Texas (+8,707), California (+5,193), Michigan (+3,804), Tennessee (+3,541), and Ohio (+3,038), while the largest decreases were in New York (-4,572), Oregon (-3,507), Washington (-3,189), Wisconsin (-2,063), and Kentucky (-1,699).

### FOOTNOTES

SA - Seasonally Adjusted Data, NSA - Not Seasonally Adjusted Data Continued weeks claimed represent all weeks of benefits claimed during the week being reported, and do not represent weeks claimed by unique individuals.

1. Prior year is comparable to most recent data.
2. Most recent week used covered employment of 153,398,888 as denominator.
3. Information on the EB program can be found here: [EB Program information](#)
4. Some states maintain additional benefit programs for those claimants who exhaust regular benefits, and when applicable, extended benefits. Information on states that participate, and the extent of benefits paid, can be found starting on page 4-5 of this link: [Extensions and Special Programs PDF](#)
5. Information on STC/Worksharing can be found starting on page 4-11 of the following link: [Extensions and Special Programs PDF](#)

## Advance State Claims - Not Seasonally Adjusted

Note: Advance claims are not directly comparable to claims reported in prior weeks. Advance claims are reported by the state liable for paying the unemployment compensation, whereas previous weeks reported claims reflect claimants by state of residence. In addition, claims reported as "workshare equivalent" in the previous week are added to the advance claims as a proxy for the current week's "workshare equivalent" activity.

\*Denotes OUI estimate.

Figures appearing in columns showing over-the-week changes reflect all revisions in data for prior week submitted by state agencies.

1. The Unemployment Compensation program for Federal Employees (UCFE) and the Unemployment Compensation for Ex-servicemembers (UCX) exclude claims filed jointly under other programs to avoid duplication.
2. Rate is not seasonally adjusted. The source of U.S. total covered employment is BLS.

PA	-1,036	Fewer layoffs in transportation and warehousing, accommodations and food services, construction, manufacturing industries.

## TECHNICAL NOTES

This news release presents the weekly unemployment insurance (UI) claims reported by each state's unemployment insurance program offices. These claims may be used for monitoring workload volume, assessing state program operations and for assessing labor market conditions. States initially report claims directly taken by the state liable for the benefit payments, regardless of where the claimant who filed the claim resided. These are the basis for the advance initial claims and continued claims reported each week. These data come from ETA 538, Advance Weekly Initial and Continued Claims Report. The following week initial claims and continued claims are revised based on a second reporting by states that reflect the claimants by state of residence. These data come from the ETA 539, Weekly Claims and Extended Benefits Trigger Data Report.

### A. Initial Claims

An initial claim is a claim filed by an unemployed individual after a separation from an employer. The claimant requests a determination of basic eligibility for the UI program. When an initial claim is filed with a state, certain programmatic activities take place and these result in activity counts including the count of initial claims. The count of U.S. initial claims for unemployment insurance is a leading economic indicator because it is an indication of emerging labor market conditions in the country. However, these are weekly administrative data which are difficult to seasonally adjust, making the series subject to some volatility.

### B. Continued Weeks Claimed

A person who has already filed an initial claim and who has experienced a week of unemployment then files a continued claim to claim benefits for that week of unemployment. On a weekly basis, continued claims are also referred to as insured unemployment, as continued claims reflect a good approximation of the current number of insured unemployed workers filing for UI benefits. The count of U.S. continued weeks claimed is also a good indicator of labor market conditions. While continued claims are not a leading indicator (they roughly coincide with economic cycles at their peaks and lag at cycle troughs), they provide confirming evidence of the direction of the U.S. economy.

### C. Seasonal Adjustments and Annual Revisions

Over the course of a year, the weekly changes in the levels of initial claims and continued claims undergo regularly occurring fluctuations. These fluctuations may result from seasonal changes in weather, major holidays, the opening and closing of schools, or other similar events. Because these seasonal events follow a more or less regular pattern each year, their influence on the level of a series can be tempered by adjusting for regular seasonal variation. These adjustments make trend and cycle developments easier to spot. At the beginning of each calendar year, the Bureau of Labor Statistics provides the Employment and Training Administration (ETA) with a set of seasonal factors to apply to the unadjusted data during that year. Concurrent with the implementation and release of the new seasonal factors, ETA incorporates revisions to the UI claims historical series caused by updates to the unadjusted data. For further questions on the seasonal adjustment methodology, please see the [official release page for the UI claims seasonal adjustment factors](#) or contact BLS directly through the [Local Area Unemployment Statistics web contact form](#).
